

Christmas is coming!

In need of some fresh Christmas gift ideas?

Dreambaby® have a range of excellent gifts for young families!

It's almost impossible to believe it, but once again, Christmas is right around the corner. While some families prepare early, every year we're faced with the inevitable last minute Christmas rush to buy food, presents, decorations and more. It can be tricky to buy gifts for new families, but Dreambaby® have a great selection of cost-effective value packs, safety kits and other products which would

all make for ideal Christmas gifts and stocking-fillers.

Home safety kits can be a great gift for new families who are in the process of childproofing their house. Many of these are ideal for use from the earliest months of bringing an infant into the home, but the majority are suited for families with children who are just learning to crawl, walk and generally move about on their own. It's

at that point that many home safety hazards become apparent, as wide-eyed kids have a never-ending curiosity about their surroundings. Many of the Dreambaby® value packs are excellent starter kits, covering the basics in home safety needs.

The Dreambaby® Household Safety Kit contains 26 pieces, including outlet plugs, multi-purpose latches, safety catches and more. This is a great

option for families with children who are starting to open cupboards and doors on their own. The Home Safety Essentials Kit is similar but larger, containing 46 pieces, making it perfect for a larger property, or any property with additional cupboards, drawers and other storage spaces.

For families living in rental or temporary accommodation, we recommend the Dreambaby® No Tools No Screws Safety Kit. This excellent pack contains 35 items, all of which are completely mobile and adhesive, meaning that no damage needs to be done to any furniture. This kit is also perfect for families who are about to go on holidays, as the small pieces can add safety and security to any hotel room or rental home.

The Dreambaby® Bathroom Safety Kit provides 28 pieces specifically pertained to bathroom safety, including non-slip bath stickers, a toilet lock, spout cover and a bath thermometer. A fantastic option for any family, the important of bathroom safety cannot be emphasised enough.

The Dreambaby® Grooming Kit has proven to be an incredibly popular item both for gifts and for families that travel or stay at home.

The kit comes inside a durable plastic container, making it easy to take anywhere. It contains all basic grooming needs for any infants and young children, including a small toothbrush with gentle

bristles, nail clippers and emery boards, a soft hair brush and more.

Some of our other most popular gift items include Dreambaby® Deluxe Padded Bath Seats and our many safety gates, as well as our favourite new item, the Dreambaby® Royal Converta 3-in-1 Play-Pen, which now has extensions available too.

These are a select few suggestions for Dreambaby® gifts for any family! While many of our items would make ideal presents, the safety kits are not only carefully designed to cater to the needs of all families, but they are cost-effective, easy to store, and excellent quality.
